

Dependency Diagram - Travel Request Analysis

External Database

PostgreSQL

^

| implemented by

Infrastructure

PostgresTravelRequestRepository

^

| implements

Application

TravelRequestRepository interface

ProcessTravelRequestUseCase

^

| uses

Domain

analyzeTravelRequest

TravelRequestInput / TravelRequestOutput

TravelRequestRecord

Public entry point

src/main.ts -> processTravelRequest -> ProcessTravelRequestUseCase

Dependency direction

main -> application -> domain

infra -> application contracts + domain types

domain has no infrastructure dependency
